Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-8, drawn to a stackable golf tee marker comprising a body and a ground engaging portion with a well and a drain hole.

Group II, claim(s) 9-12, drawn to a pickup and placement cylinder for stacking golf tee markers.

Group III, claim(s) 13-18, drawn to a transport and storage tube for stacking golf tee markers..

Group IV, claim(s) 19-24, drawn to a golf course vehicle attachment for pickup and placement of golf tee markers..

Group V, claim(s) 25, drawn to a cabinet for storing transport and storage tubes for stacking golf tee markers.

2. The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: as shown above each Group is directed to different special technical features.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
